# SUCCESS STORIES

## Jeremy Blackburn

Chief Operating Officer  
CHBO

"Live Chat has far exceeded any expectation we had envisioned when integrating their unique platform to our website. We are now going on our eighth year using their service. It's like they are a part of the company now and they treat our customers the same way. Business would not be the same without them. I highly recommend their service for anyone wanting to greet customers in real time and give them a first class experience on your website."

## Walter Reaves

Criminal Defense Attorney  
The Law Office of Walter M. Reaves Jr.

"A couple of years ago, I decided to add live chat to my website. After evaluating different vendors, I decided to go with the recommendation of another lawyer I knew. I couldn't have made a better choice. The operators have done a fantastic job of providing professional responses. They worked with me to come up with a script, and have been happy to make changes along the way. Whatever questions we have, they answer it. Not only do I recommend adding live chat to your website, I also recommend going with LiveAdmins."

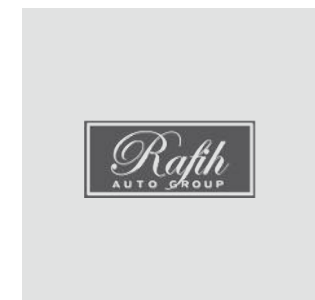

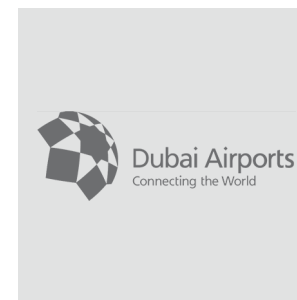

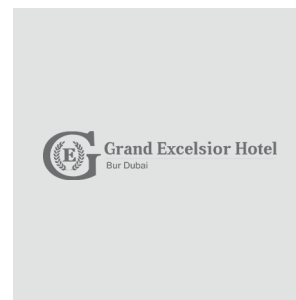

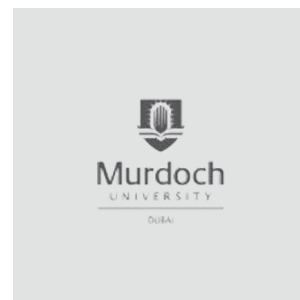

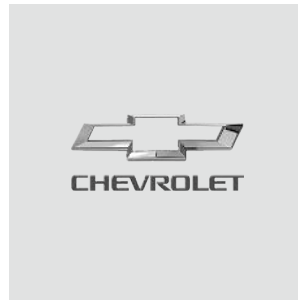

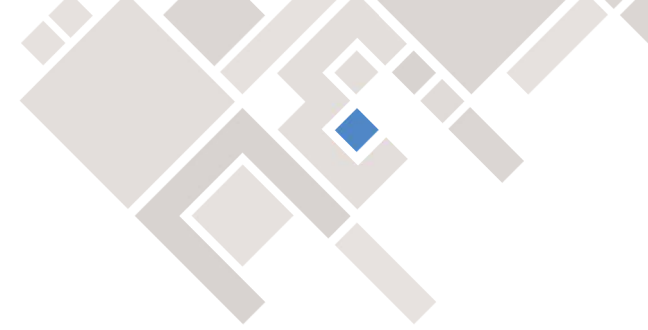

## Maria Hular

Client Services Manager  
SPF Realty

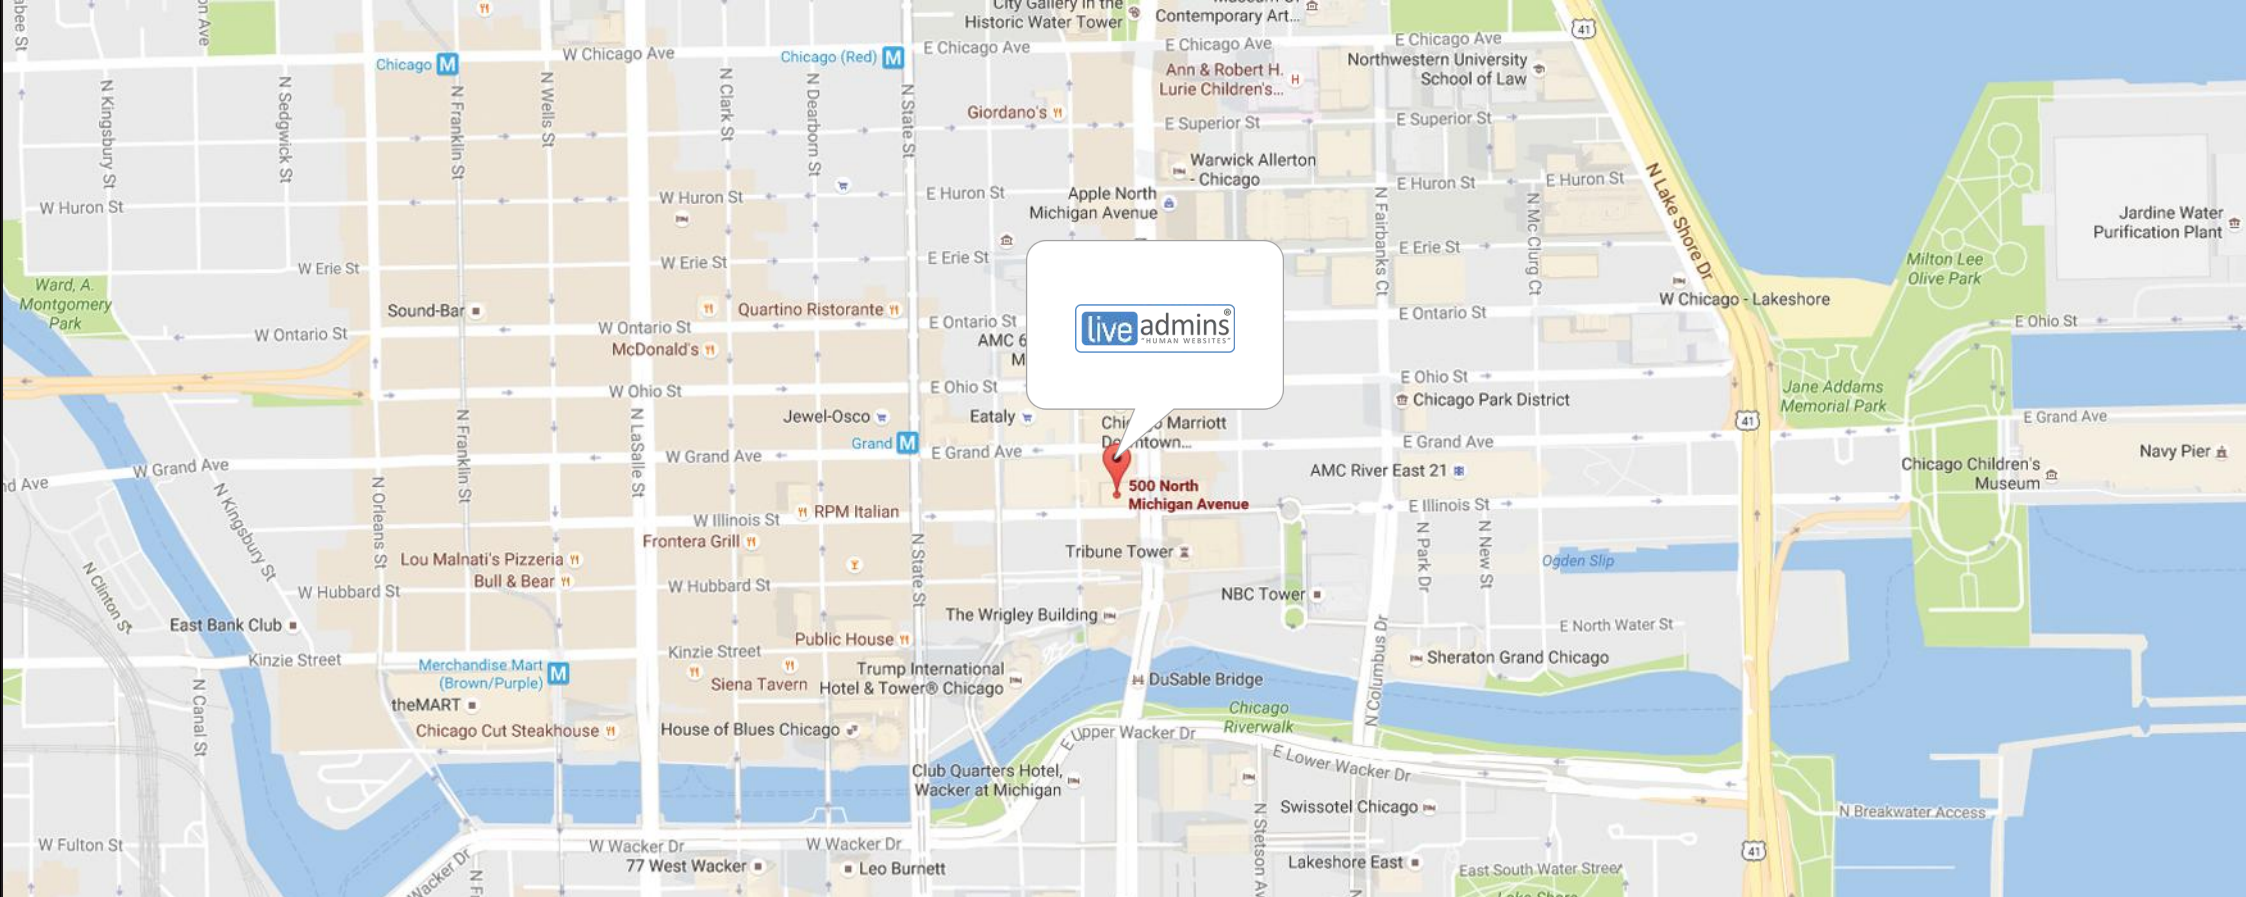

"LiveAdmins has played an eminent role in optimizing SPF as a business, and enabling the organization to become a market leader in the Real Estate Industry. The quick response rate, user-friendliness and the addition of human factor on our website has given our brand a competitive edge over others, and allowed us to better serve our clients by working on their specific requirements, rather than trying to sell just anything available."
